Subject: USDOJ Comments-Microsoft win over the people

tmp.htm

Where is the protection for me and businesses which serve me in the Microsoft case? Who was bribed to get this decision-- or are our govt. people that stupid?

I have stock and don't want to see the company decimated, but I have been hurt, as has every one who uses a computer by the Microsoft monopoly and their defective software.

Don't you see the damage your settlement is doing? Look at the new software that puts restrictions on people who buy and use the software--we can't even use it as we please!
